

WE CONSIDER EXCELLENCE IN HEALTH, SAFETY AND ENVIRONMENTAL PERFORMANCE, AS WELL AS PRODUCT QUALITY, AN ESSENTIAL COMPONENT TO LONG TERM SUCCESS.

At BCS we are leading provider of belt conveyor systems and their component units worldwide, capable of all aspects of design, supply, construction and maintenance, including shutdowns, emergency repairs and inspections. BCS also provide technical support in conveyor operations management, system optimization & energy management.

BCS primary purpose is to build a successful business that is well known by industry for conveyor design, supply, construction & maintenance.

BCS will do this by:

- Relentlessly working towards achieving our goal of zero harm to our employees and the greater community
- Effectively managing risk and opportunities.
- Complying with current applicable laws and other compliance obligations.
- Meeting or exceeding customer, employee and other stakeholder requirements.
- Protecting the environment including the prevention of pollution.
- Continually improving our processes, systems and performance.
- Establishing measurable objectives and targets to monitor our success in meeting these commitments.
- All personnel are consulted and contribute to improvement of the HSEQ Management System.

To achieve these objectives BCS maintains a HSEQ Management System in accordance with legislative requirement's and in compliance with BCS's ISO Accreditation requirements as per AS/NZS 4801, ISO 9001 & ISO 14001

This policy is available to all personnel and interested parties.

The BCS team will review and where required revise this policy annually to ensure it is current to HSEQ Management System and ensure sufficient resources are provided.
